

logic which can deal any five card hand at random and the player can hold any of the five cards before the draw.

Claim 34: support can be found throughout the entire specification, appendix A, and Figures, and see especially: Figures 1-4, P23, P29-30, P37-39, P97, claim 13. More particularly, described is a game wherein a player can make the second hand wager prior to cards being dealt (P97), can be dealt a hand such as a straight or higher, the player could (P23) (and should) hold all five cards, wherein the straight wins the player a payout (see item 200 line 6, "STRAIGHT") on the first paytable (a "payout" which can also be considered a "bonus").

II. CONCLUSION

If there are any issues the Examiner wishes to discuss with the Applicant, the Examiner is encouraged to contact the undersigned attorney.

Respectfully submitted
